

UFC/FML Port Opening Tool Kit

Technical Description

The UFC/FML Port Opening Tool Kit provides a safe, quick and easy use solution for opening the round ports on the UFC and FML Dome Closures.

The port opening tool kit is supplied with a single handle and 3 cutter assemblies for opening S/B, SD and BD ports (see base diagrams for port identification).

The cutter assemblies are replaceable parts which can be purchased separately once the original assemblies have reached the end of their life.

Features & Benefits

- Single Handle manages a range of cutter assemblies
- Quick and simple assembly changeover
- Smooth consistent cutting action
- Supplied with B/S, SD and BD Cutter Assemblies
- Replacement cutter assemblies available separately

Port Opening Tool Sizes B/S, SD and BD.

B/S cutter assembly.

SD cutter assembly.

BD cutter assembly.
